SATURDAY, July 17. To-day's stock market hore little re-semblance to that of a typical July Saturday. There was a broad range to the trading, a marked increase in activity is most of the standard stocks and an aggregate of 453,000 shares, as compared with 167,000 on the previous Saturday. As notable as the broad range and increased activity was the market's strength, particularly in many of the railroad stocks, which in the five previous days of the week had made gains much smaller than had Steel and others of the industriais. Yesterday the Steel shares sold off, probably in a profit taking movement naturally resulting from the extent of the advance in previous days, and Union scific was the stock most conspicuous in the trading. The senior issue of the Harriman group sold well above its previous high price from the early trading until the close of the market and soured a net gain of 3% points. Southern Pacific, Reading, Louisville and Nash-ville and Atlantic Coast Line were other strong shares in the railroad group, and the market as a whole was one of the most satisfactory of the month for those holding stocks for speculative or investment rposes. For this decided improvement in both the breadth and tone of the trading the only reason assigned was the cumulative evidence, supplied in the week end trade reports, of an improvement in pracsically all lines and an improvement surpassing the average expectation. As supplementary, for example, to the dem-onstration of Dun and Bradstreet that each succeeding week has become a record of advancing activity in industry and commerce, Marshall Field & Co.'s weekly review reported orders from retailers unusually good for this season of the year, advancing prices and an indis-position of manufacturers to commit themselves for goods not at hand as-they expect advancing prices. The compilation of bank clearings for the week showed a total of \$2,917,000,000, an increase of 15 per cent, over the corresponding week of the previous year, and Dun's report of commercial failures for the first two weeks of July showed a decrease of approximately 50 per cent. in liabilities as compared with the corresponding period of 1908. These and other favorable presentations by the trade papers were also strengthened by such concrete reports as that the Baltimore and Ohio was in the market for more than \$9,000,000 of new equipment and that the Boston and Maine had placed orders for 21,000 tons of steel rails.

Neither the resurn of more than \$9,000,-000 of Government deposits nor heavy gold shipments to South America sufficed to reduce except by an inconsiderable amount the remarkably strong surplus reserve shown by the Clearing House banks last week, The surplus reported yesterday in the actual statement remained close to \$34,000,000, and though more than half of the \$7,500,000 gold engaged for shipment to the Argentine remains to be forwarded to-day's state-ment showed the condition of the banks stronger than it had been represented in any of the forecasts. In regard to the crops as well, the consensus in Wall Street at the close of business was that marked progress in both the cereals and cotton had been made in the course of the week and that the time was not far distant, current favorable weather continuing, when the present bright pros-pects might be regarded as absolute assurance of abundant yields.

## THE, BOSTON MARKET.

Boston, July 17 .- There was no feature

to the market for Copper	shares	to-day.
the market being very du		
confined to odd lot transacti	ons.	The tone
remains firm on the restric	ted vo	lume of
trading. Industrials and r	nila w	ere dull
and neglected during the ah	ort ses	sion.
Transactions in detail in	the me	rket to-
day were as follows:		
	est, e	ow- Clos- st. ing.

The local money market last week remained quiet and easy, the heavy loss of cash by the banks through Sub-Treasury operations being without effect upon the price of accommodation. Funds on call loaned at 1½ and 2 per cent., with the bulk of the business done at 1½ per cent. There was little demand for time loans except for the six months maturity, for which 2½ to 2½ per cent. for sixty days, 2½ to 2½ per cent. for sixty days, 2½ to 2½ per cent. for ninety days, 2½ to 2½ per cent. for four months, 3 per cent. for four months and 3½ per cent. for over the year periods. Commercial paper was quoted at 3½ to 4 per cent. for prime single names and indorsed bills receivable; other names 4½ per cent.
